

NEXDYNE TECHNOLOGY

Intelligence, Delivered

COMPANY OVERVIEW

NexDyne Technology is a leading provider of intelligent automation, data analytics, and digital transformation solutions for federal agencies and enterprise organizations. With over 15 years of experience, we deliver mission-critical technology solutions that drive operational efficiency, ensure compliance, and enable data-driven decision making. Our proven track record includes \$2.3B in documented ROI and 85%+ automation rates for federal clients.

CORE COMPETENCIES

Intelligent Automation	RPA, process orchestration, enterprise integration (iPaaS), workflow automation
Data Analytics & Intelligence	Real-time analytics, predictive ML/AI, data engineering, visualization dashboards
Cloud Infrastructure	Multi-cloud architecture, FedRAMP compliance, cloud migration, hybrid solutions
Cybersecurity & Compliance	Zero-trust architecture, CMMC, FedRAMP, FISMA, continuous monitoring
ATO Support	Authority to Operate acceleration, security documentation, compliance roadmaps
Application Development	Custom software, API integration, legacy modernization, agile delivery
Digital Transformation	Change management, process optimization, technology roadmaps, ROI modeling

KEY DIFFERENTIATORS

- **Proven ROI Methodology:** Proprietary RAPID Framework delivers measurable outcomes with 3-6 month payback periods
- **Federal Expertise:** Deep experience with DoD, civilian agencies, intelligence community, and state/local governments
- **Compliance-First Approach:** FedRAMP authorized solutions, CMMC compliance, and streamlined ATO processes
- **Technology Partnerships:** Strategic alliances with UiPath, Microsoft, AWS, Palantir, Snowflake, and 20+ leading platforms
- **Agile Delivery:** Rapid prototyping, iterative development, and continuous improvement methodologies

PAST PERFORMANCE HIGHLIGHTS

Federal Agency	85% process automation	\$18M annual savings	Defense sector
Healthcare System	60% faster claims processing	\$12M cost reduction	HIPAA compliance
Defense Cloud Migration	15,000 workloads migrated	FedRAMP High certified	Zero downtime
Manufacturing IoT	99.2% uptime achieved	40% efficiency gain	Predictive maintenance

Energy Grid Analytics	\$500M infrastructure optimization	Real-time monitoring	Smart grid platform
------------------------------	------------------------------------	----------------------	---------------------

CERTIFICATIONS & COMPLIANCE

- **Security:** FedRAMP Authorized, CMMC Level 3, ISO 27001, SOC 2 Type II
- **Quality:** CMMI Level 3, ISO 9001, Agile/SAFe certified teams
- **Industry:** HIPAA, PCI-DSS, FISMA, NIST 800-53, GDPR compliant solutions
- **Partnerships:** Microsoft Gold Partner, AWS Advanced Consulting Partner, UiPath Diamond Partner

CONTRACT VEHICLES

- **GSA Schedule 70:** IT Professional Services, Cloud Solutions, Software Development
- **GSA MAS:** Multiple Award Schedule for federal procurement
- **SEWP V:** Solutions for Enterprise-Wide Procurement
- **8(a) STARS III:** Small business set-aside contracts (pending)
- **State Contracts:** NASPO ValuePoint, state-specific IT services agreements
